National Emergency Alert System (EAS) Test

- On 09/28/16 at 1120 hours (PST) the Federal Emergency Management Agency (FEMA), in coordination with the Federal Communications Commission (FCC), will conduct a mandatory nationwide test of the Emergency Alert System (EAS) to verify the delivery and broadcast, and assess the readiness for distribution, of a national level test message.
- The EAS test is made available to radio, television, cable, and direct broadcast satellite systems and is scheduled to last approximately one minute.
- The message of the test will be similar to the regular monthly test message of EAS, normally heard and seen by the public: "This is a national test of the Emergency Alert System. This is only a test."
- FEMA is taking pains not to cause any unnecessary public concern. Such national tests can be expected to become routine in coming years.
- FEMA advises, "The test is intended to ensure public safety officials have the methods and systems that will deliver urgent alerts and warnings to the public in times of an emergency or disaster. Periodic testing of public alert and warning systems is also a way to assess the operational readiness of the infrastructure required for the distribution of a national message and determine what technological improvements need to be addressed."

2016 Haitian Entrants Support

Cal OES State Operations Center (SOC) is partially activated in support of this event.

Haitian Entrants, San Ysidro, San Diego County

- Following the tragic earthquake of January 2010 in Haiti, U.S. Immigration and Customs Enforcement temporarily ceased removing Haitian nationals to Haiti. On September 21, 2016, Secretary Johnson from the U.S. Department of Homeland Security directed that enforcement decisions with respect to Haitian nationals return to the consistent standard practice guided by memorandum dated November 20, 2014 “Policies for the Apprehension, Detention and Removal of Undocumented Immigrants” consistent with the practice for nationals from other nations. Haitian nationals currently covered by Temporary Protected Status in the United States are unaffected by this change in policy.
- There are currently three shelters open for Haitian Entrants: Christ Ministry Center, National City Armory, and El Cajon Armory.
 - The shelter counts reported on 9/26/16 were:
 - National City Armory – 37 persons (-11)
 - El Cajon Armory – 59 persons (-8)
 - Christ Ministry Center – 70 persons (+15)
- Per Cal Volunteers, starting on Monday, 9/26/16, the woman and children currently at the Christ Ministry Center will move to the El Cajon Armory and stay until 10/2/16 in order to allow the church time to clean and better configure the church space for those staying there.
- Pregnant woman currently at the church will move to an off-site location – still to be determined (TBD).
- The goal is to consolidate shelter operations at the El Cajon Armory by Wednesday, 9/28/16.

Non Governmental Organizations

- Alliance San Diego and Christ Ministry Center United Methodist Church continue to operate the two temporary shelters established at the CNG Armories and also the Christ Ministry Center.
- The Alliance San Diego reported that 20 women and children were released from the Mexicali port of entry and travelled to the Christ Ministry Center for shelter.
- Over the weekend, the Alliance San Diego requested material support for the shelters.
- Catholic Charities set up a Southwest Airlines Corporate account to purchase one-way plane tickets for Haitian Entrants that are relocating.
- Per Cal Volunteers, Catholic Charities has enough funding to pay for airline tickets for all those needing monetary assistance for transportation. Those who have the means to pay for their airlines ticket will continue to do so. Catholic Charities will be on site at the National City Armory on 09/26/16 to purchase airline tickets for those traveling to their final destination.
- A Catholic Charities representative from Miami will be at the El Cajon armory starting on 9/26/16 to help enroll entrants that qualify for the Cuban Haitian Entrant Program (CHEP).
- There are currently fifteen (15) pregnant women at the church and are being treated by the church’s medical partner, La Maestra Clinic and the volunteer nurse practitioner. Per Pastor Bill from Christ Ministry Center, all pregnant women and their children (a total of 26 people) will move to the Best Western Hotel in San Diego starting on 9/26/16 to allow the church to clean and reorganize.
- The American Red Cross (ARC) is continuing to work with the Alliance San Diego and Christ Ministry Center United Methodist Church to provide unbranded cots, blankets, hygiene kits, dormitory management expertise, technical assistance and training to church personnel in managing shelters.

2016 Haitian Entrants Support

State agencies currently supporting the sheltering operations are as follows:

- California Department of Social Services (CDSS):
 - The California Department of Social Services (CDSS) is coordinating with U.S. Department of Health and Human Services, Administration for Children and Families and Office of Refugee Resettlement (ORR).
 - CDSS issued a one-time augmentation of \$1.3 million of Refugee Social Services (RSS) funding provided by ORR and can be used for transitional housing assistance and transportation. Of the \$1.3 million:
 - \$334,224 to San Diego County Health and Human Services Agency
 - \$128,764 to and Catholic Charities/Wilson Fish
 - CDSS Disaster Services Bureau (DSB) reached out to its feeding partners (Southern Baptist Disaster Relief, The Salvation Army, food banks, etc.) to find out if they have the resources/capacity to handle feeding operations or provide food to the shelters.
 - DSB is working with our Emergency Food Assistance Program (EFAP) to research commodities programs.
- Cal Volunteers:
 - The priority for staff at the National City Armory will be to purchase airline tickets and arrange transportation to the airport.
 - CV staff and Disaster Team members have prepared the El Cajon Armory to receive the women and children from Christ Ministries Center.
 - CV staff and Disaster Team members will clean the National City Armory once all occupants have departed, currently scheduled for 9/28/16.
 - CV and AmeriCorps Disaster Team members plan to demobilize on 10/2/16.
 - The LDS Church is delivering a food shipment to Chris Ministry Church on 09/23/16 to help provide breakfast and lunch for shelter occupants with a potential for additional food shipments dependent on need.
 - Cal Volunteers has one staff member at the National City Armory and one at the El Cajon Armory. Cal Volunteers has also activated 11 California AmeriCorps Disaster Team members to assist in sheltering operations.
- California Department of Public Health (CDPH):
 - The California Department of Public Health (CDPH) is coordinating with U.S. Department of Health and Human Services, Office of Refugee Resettlement, Office of Refugee Health, and local public health.
- California Department of Food and Agriculture (CDFA):
 - Continuing to monitor the situation.
- California National Guard (CNG):
 - [Per CNG, the plan is to demobilize both armories on 10/4/16 at 0800.](#)
 - The California National Guard (CNG) is mission tasked to stand up two Armories for shelter.
 - The San Diego Operational Area is monitoring the situation. They have sent county eligibility teams (for Cal Fresh and Medi-Cal) to all three (3) shelter sites on Wednesday, 09/21/16.
- The Imperial Operational Area is monitoring the situation in the Calexico Point of Entry and is currently not significantly impacted.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

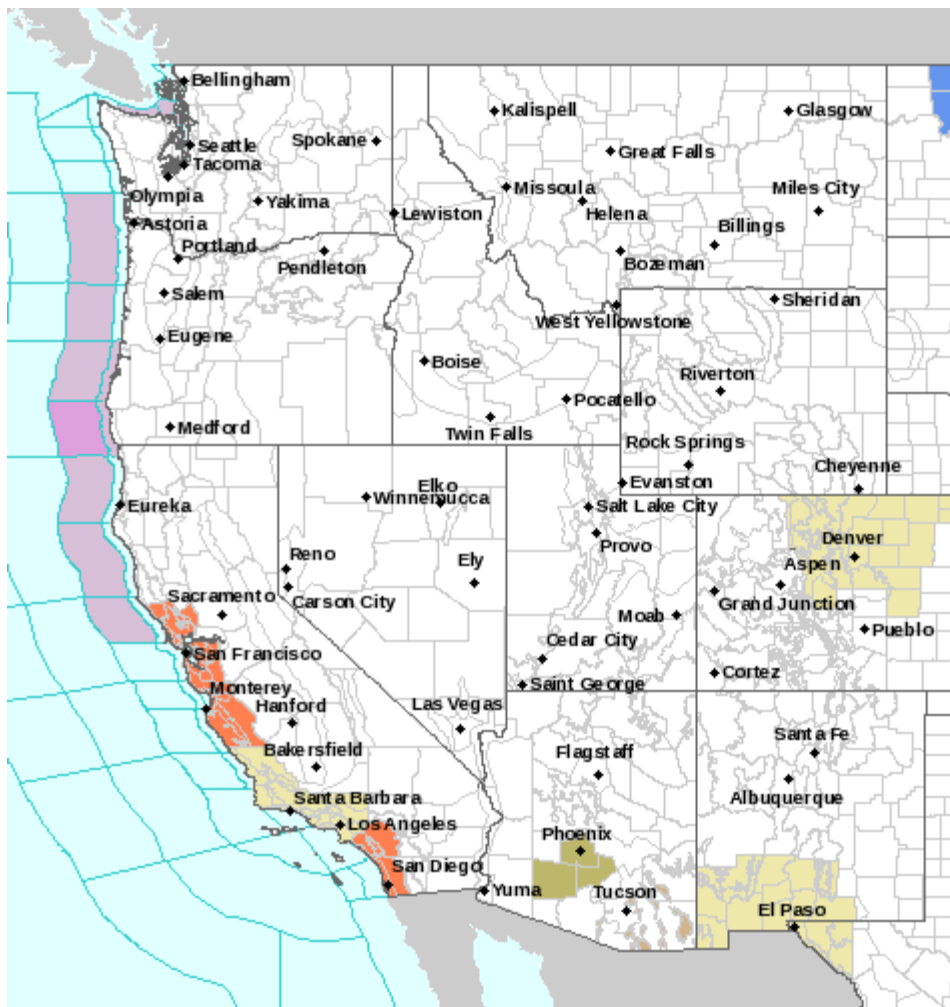

Low afternoon relative humidity (RH) but slowly improving overnight recoveries next few days. FRIDAY expecting strong, gusty SW to W winds with low relative humidity to develop near and east of the Cascade/Sierra crest. Strong high pressure will linger over the Northern California region today for another very dry and unseasonably warm day. Afternoon temperatures should be a few degrees cooler than yesterday's in most areas. Tuesday the high will begin to weaken noticeably, but temperatures are likely to remain quite warm. A significant cooling trend will show up Wednesday as a low pressure trough approaches the coast and begins to decisively take over our weather pattern. The trough will gradually move into the Northern California region the latter half of the week and stay with us through the weekend. Friday and Saturday strong, gusty SW to W winds and low RH are expected to develop for areas near and east of the Cascade/Sierra crest as the trough arrives and takes up residence over the region. There will also be a chance of some light showers in the far NW areas Friday and possibly over more areas in the NW Saturday. Sunday may see more widespread precipitation over the northern half of the Northern California region. Precipitation or not, RH values will increase significantly late in the 7 day period. The warmest inland valleys will be in the low 100's again today, but by the end of the weekend could drop to as low as the mid 70s. Low afternoon RH's will remain between about 8-15% for a few more days before gradually climbing the rest of the week. Areas with poor overnight RH recovery of 20-27% will continue tonight before slowly improving. Winds will continue to be N to E today, but much lighter, and westerly afternoon winds will return to the coastal areas Tuesday. All areas are likely to have SSW to W winds Wednesday through the weekend.

SOUTHERN CALIFORNIA

Gusty offshore winds across Southern California this morning. Hot and very dry today. Northeast to east winds of 15 to 25 mph with gusts to 40 mph will continue to surface across the mountains and below the canyons and passes of Southern California this morning as a fairly strong surface high sits over the Rockies. The surface high will start to weaken this afternoon causing the offshore winds to become more localized. Winds will become light across the entire area by Tuesday afternoon. Strong high pressure aloft over Northern California will maintain hot temperatures for the coastal and valley locations today, with 90s along the coast and up to 105 in the warmest valley locations. Mountain and desert locations will have near normal temperatures, with mid 70s to mid 80s for the mountains and around 100 degrees for the lower and eastern deserts. Minimum humidity will be in the single digits and teens across the region today. Low pressure over Baja will move north across Southern California and the high pressure across Northern California will move east bringing a cooling trend to the area Tuesday through Thursday. The low pressure area will bring isolated showers and thunderstorms to Southern California Tuesday through Thursday and to the Sierra Wednesday and Thursday. Minimum humidity will increase to 20% to 40% across Southern California Tuesday and Wednesday, but most of Central California will remain in the single digits and teens. Humidity will increase across Central California starting Thursday. A Pacific trough will drop down the West Coast bringing further cooling Friday through this weekend. Temperatures will be well below normal this weekend. This trough will also bring strong and gusty westerly winds to the mountain ridges and desert passes Friday afternoon through this weekend. The marine layer will become deep by Saturday, with morning low clouds and fog making it to the lower coastal mountain slopes.
